

Abdelrhman Mahmoud

FRONTEND DEVELOPER

Professional Summary

Frontend developer with 2 years of experience building production-ready applications using Next.js and React. Contributed to company and client projects such as Dipzin.com, StudyHive.com, and Experience.com, delivering responsive UIs, custom design systems, and data-driven dashboards. Experienced in turning design and product requirements into reliable, user-friendly applications. Fluent in English (C1), with strong communication skills in both technical and collaborative environments.

Work Experience

Dabbo Tech – Frontend Developer (July 2023 - February 2025)

- Built production-grade web applications with Next.js, React, and TypeScript.
- Collaborated with backend and design teams to deliver scalable, responsive applications.
- Created reusable UI components, optimized performance, and maintained clean architecture across multiple projects.
- Mentored two interns, supporting their work on dashboards and internal tools.

Selected Projects

Dipzin.com (Company Project):

- Rebuilt the entire frontend application from scratch using Next.js, React, and TypeScript.
- Designed and implemented a custom UI system with Storybook, improving design consistency and developer velocity.
- Optimized app performance and responsiveness, reducing load times and improving Lighthouse scores.
- Built a fully functional dashboard integrated with a Strapi CMS backend, enabling structured data management and internal workflows.

Experience.com (Client Project):

- Delivered the full frontend with reusable UI components, page content, and a blogs page rendered from custom Markdown.
- Refactored critical frontend modules to improve performance and maintainability.
- Delivered responsive layouts and reusable components, ensuring pixel-perfect design handoff.

StudyHive.com (Client Project):

- Built responsive UI and app functionality, integrating CMS and search solutions.

OSSkins (Personal Project – Tauri Desktop App):

- Developed a cross-platform desktop app using Tauri and React, with custom UI and local data management, reaching ~1,000 users.

Academic History & Certification

- **Bachelor's Degree – Arts, Alexandria University** (Ongoing, non-attendance program)
- **CS50x: Introduction to Computer Science** – Harvard University (2022 Completed with Certification)
- Independent study and hands-on experience building production applications with React, Next.js, and TypeScript.

Tech Stack

Languages & Core: TypeScript

Frameworks: React, Next.js

Styling & UI: Tailwind CSS, Radix UI, Shadcn/ui

State Management: Zustand, Redux, React Context

APIs & Data: REST APIs, Tanstack Query

Auth & Security: NextAuth.js

Tools & Deployment: Git, GitHub Actions, Vercel, ESLint, Prettier
